PROFILE

I am a dedicated games design student at Manchester Metropolitan University with a focus on environmental and technical design. Throughout my studies I have gained skills in many fields of game development, such as programming, modelling, design techniques and game industry theory. Furthermore, I have gained experience in working with games finance, data analysis and team coordination. I am looking for chances to continue learning and expand my skills with roles that can challenge my abilities.

EXPERIENCE

SIMULATED STUDIO CODER

Manchester Metropolitan University
Sep 2025 - Dec 2025

A simulated studio course for my university Games Design course, I worked as a coder for the project. I worked in Unity and C# and worked on creating the enemy AI and UI functionality.
